

CASE STUDY

Simplify hosting in a professional and secure way

GOVERNANCE.IO
EFFORTLESS OVERSIGHT AND CONTROL

-  **ARE YOU DEALING WITH:**
- UCITS
 - AIFMD
 - FATCA
 - MIFID II
 - PRIIPS
 - BEPS
 - EMIR
 - Other regulations

**GOVERNANCE.IO
HELPS YOU
GET ORGANIZED**

THEIR OBJECTIVES

- Provide a simple and accessible tool that aggregates a set of data in an ultra-secure environment.
- Find a reliable, responsive partner compliant with PSF regulations.
- Deploy a platform that adapts to their rapid growth.

Because 2Gears operates in the PSF sector and is experiencing exponential growth, they must rely on a specialized partner in this sector who understands the complexity of regulations, the need for maximum security, and the requirement for flexibility.

THE CHALLENGE

2Gears needs a tool that is sufficiently flexible to support its growth ambitions while maintaining control over its expenses. Simplicity and accessibility were essential conditions, as were security and, of course, regulatory compliance. Therefore, Telindus needed to be responsive and pragmatic.

THE SOLUTIONS

- Hosting 2Gears' data through U-Flex, Telindus' ultra-secure private cloud solution.
- Ensuring optimal security, compliant with regulatory standards.

With U-Flex, 2Gears benefits from an intuitive, scalable, and user-friendly tool without having to worry about technical details. The solution is flexible and entirely transparent: 2Gears only pays for what it uses, ensuring perfect cost control. The company can therefore focus on its core business and its clients.

THE RESULTS

Telindus has successfully streamlined 2Gears' hosting process, ensuring it is safe, secure, and professional, while also considering GDPR compliance and providing impeccable support services. The U-Flex solution offers accessibility to all employees in a controlled and customizable manner based on their needs.

Lastly, Telindus' expertise in the PSF sector is a true mark of quality and trust for 2Gears' clients, allowing them to envision significant growth with peace of mind.

THE BENEFITS FOR 2GEARS

- Perfect cost control
- Increased responsiveness
- Security and regulatory standards tailored to business requirements
- Transparency of the solution and processes
- Support and flexibility
- Credibility and expertise of Telindus, a recognized Luxembourgish partner
- Ability to focus on their business
- Facilitated cross-border market development

DISCOVER THEIR STORY

"It was important for us to find a trusted partner in Luxembourg, PSF ready. Our tool requires strict adherence to standards, high security standards, and consideration of GDPR logic. But above all, we wanted a simple and accessible solution. Telindus meets all our requirements, and working with them is a true mark of quality for our clients."

BERT BOERMAN - CEO & Co-founder 2Gears
