

# regipay

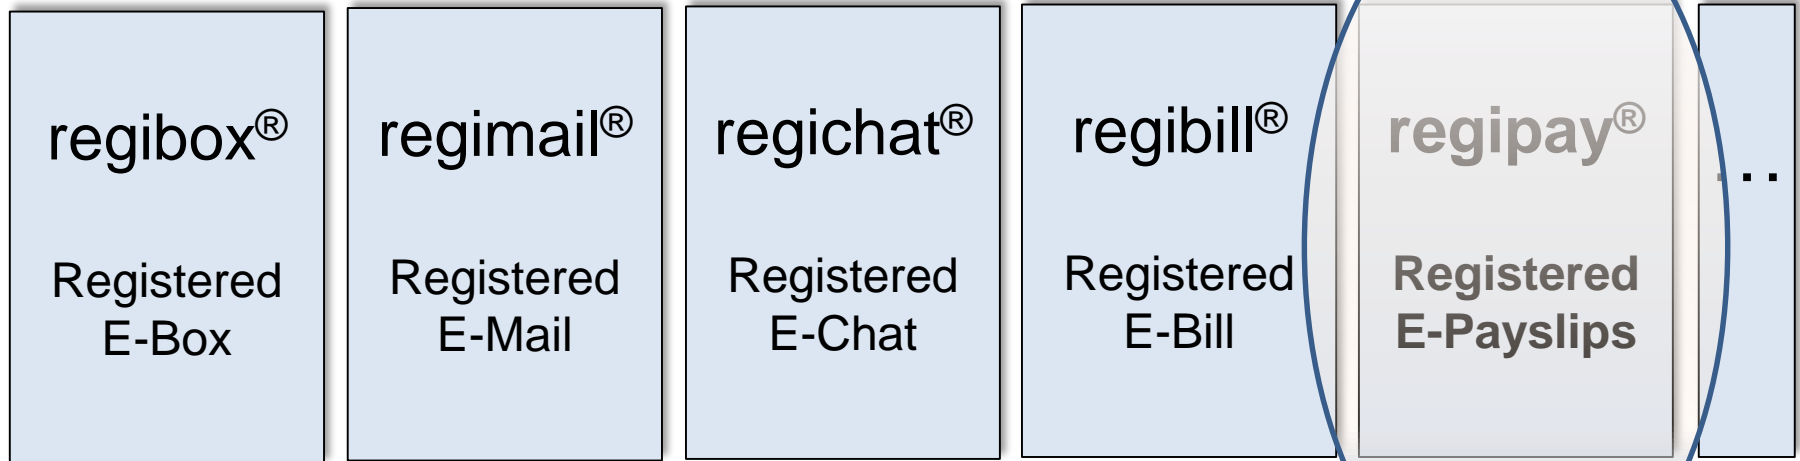

Saving time & money with regipay e-payslips

The obvious step into digitization

Luxembourg Internet Days, 14th of November 2017, Kurt.kammerer@regify.com

## Trusted E-Communications

- Data privacy and data security audited
- Locally installed or fully web-based
- Universally available, from smartphone to server platform
- Easy to use, complex tasks automated in the backend

# regipay, the easiest way to e-payslips

- Using E-mail for the secure delivery of e-payslips
- Works with any payroll solution (Apsal, PayEase, SAP, Sage, ...)
- Ease-of use
  - Automated Encryption/Decryption
  - Works with any e-mail address
  - From smartphone to desktop to fully web-based
  - In French, English or German
- Options for employers:
  - direct use (regipay desktop)
  - Via payroll partner (e.g. Fiduciaire)
- Legally compliant: data security and privacy (CNPD), labour laws

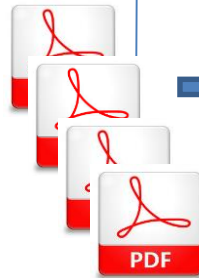

# The regipay process

- Setup (one-off)
- Inform your employees
  - Ask them for @ address
  - Input @ in payroll sys. (supported by payroll systems)
  - No software integration!

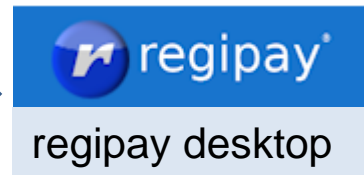

➔ ready to start new monthly process

Payroll System creates payslips (PDF)

HR Department uses regipay desktop

Regify online support (whenever needed)

@ address

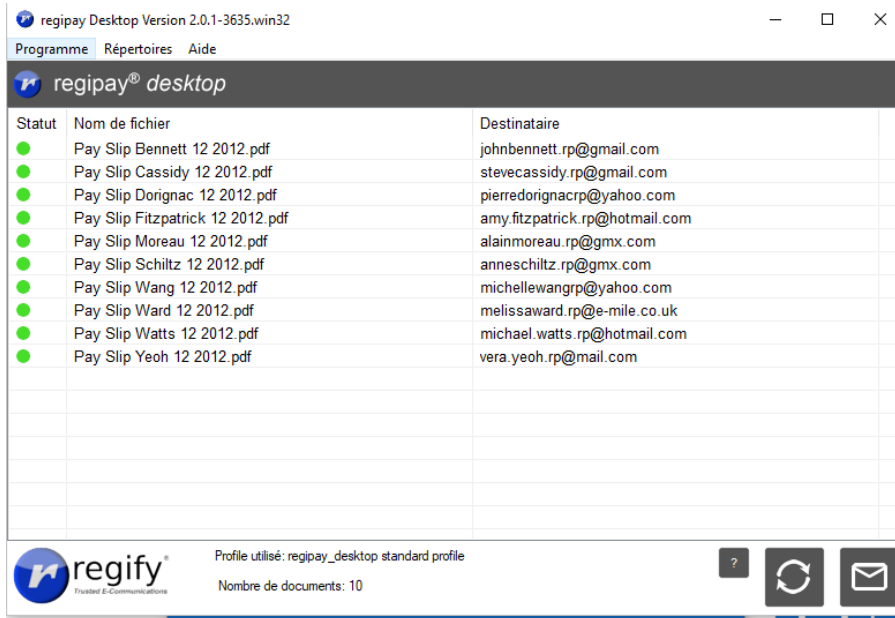

No @ address

monthly payroll process

## Easy user interface for HR:
