

GESALL

IT software

Easy accounting management

To help you manage your accounting easily and efficiently, Telindus has developed a customised solution, already adopted by thousands of users in Luxembourg.

Gesall is an efficient tool you can use irrespective of your line of business to simplify your accounting management significantly.

Because it combines relevance, performance, accessibility and cost control, our Gesall solution is the perfect tool to manage your accounting.

A comprehensive tool

From simple data entry to the audit of accounts, you can easily perform all your accounting activities with our Gesall software

Flexible

On your site or in our cloud? Our offers are flexible and allow you to choose how to install your solution.

Adaptability

We edit our software and are therefore able to adapt quickly to both changes in legislation and to technological developments.

User-friendly, intuitive

This dynamic, user-friendly and intuitive solution will support and assist you in your accounting management tasks.

“Gesall, the accounting software package created more than 30 years ago, and is currently the best-seller in Luxembourg ”

THE BENEFITS

You are in good company

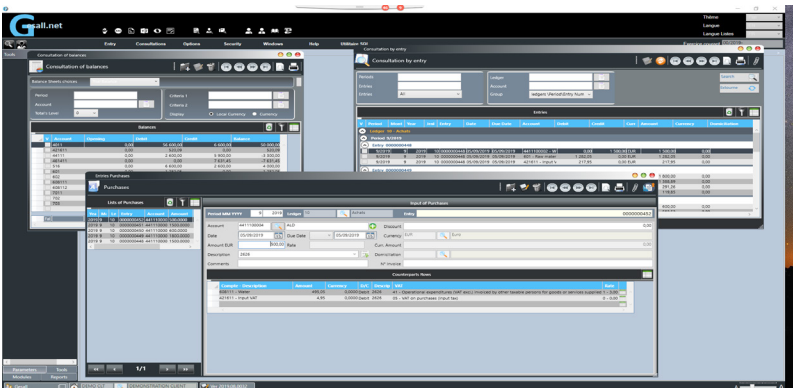

If needed, our team intervenes quickly to provide you with concrete solutions.

Receive a complete training

You will benefit from training provided by our dedicated team who will share its expertise and know-how with you, thus enabling you to become autonomous and efficient in no time.
