

Telindus Mobile Recording

Secure, Agile and Global

The Cross Border Voice and Messaging Recording solution that helps organisations to comply with the requirements of the MiFID II regulation impacting Financial Sector Professionals.

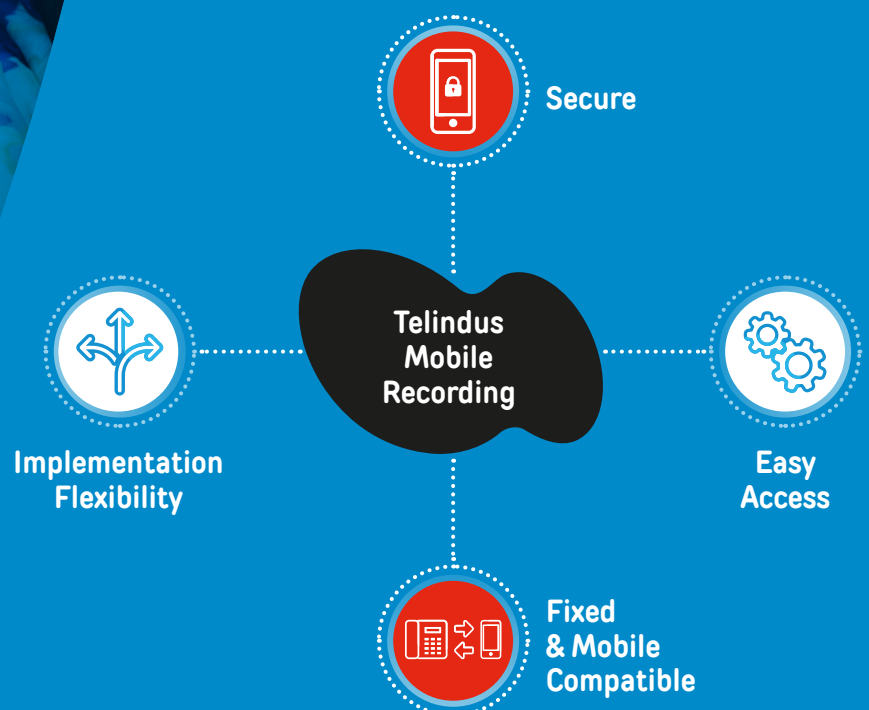

Telindus Mobile Recording solution enables your organisation to **record calls and SMS in Luxembourg and when traveling abroad.**

The solution is secured, allowing four eyes access, providing dedicated encryption keys per customer, and **storing data in our Luxembourg Cloud or in your own infrastructure.**

The service can be extended to record fixed telephony (such as Cisco or Skype for Business technologies, Chat messaging, Video conferencing, Screen sharing).

Telindus Mobile Recording benefits

- Recording on a secured environment to minimize the risk of fraud
- Mobile device agnostic solution
- Enables fast trade reconciliation across media when recording multiple sources (mobile, deskphone, chat...)
- Allows mobile workers to benefit from your corporate tools while out of the office and travelling abroad
- Can be integrated into your business applications

Multiple Delivery Options

Cloud Mobile Recording

Telindus Mobile Recording enables your organisation to record and store all calls in our secure cloud environment in Luxembourg. The solution automatically monitors, encrypts and seals all access to recordings.

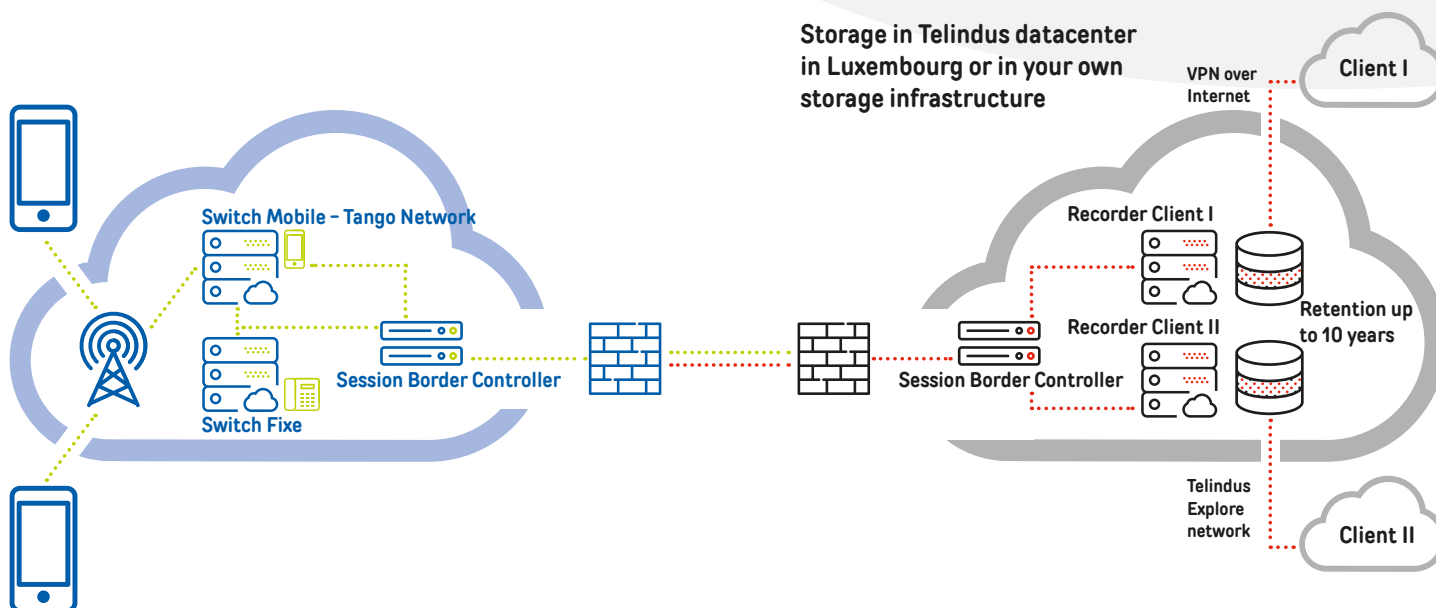

Hybrid Mobile Recording

Your organization can seamlessly store all calls records, using your enterprise storage infrastructure.

On-Premise recorder

This option allows you to host and manage the recording engine, as well as the data records.

Telindus Mobile Recording Process

The solution is designed to **avoid loss of records or unusable communications**: the mobile line is always recorded and the recording service confirms the process before the call is established.

In addition to the recording service, Telindus can offer **Mobile Device Management solutions**. Those are highly recommended to restrict access and use of uncontrolled applications (such as iMessage, WhatsApp, Facebook messenger).

About Telindus Luxembourg

Since 1979, Telindus Luxembourg assists all businesses and organisations in their digital transformation, by providing holistic ICT & Telecommunications solutions and tailored support services. With a team of over 500 passionate experts, Telindus' approach encompasses Fixed and Mobile Telecommunications, ICT Infrastructures, Multi-Cloud, Fintech solutions, Cybersecurity and Managed Services. Through its Training Institute, Telindus addresses the whole scope of its customers' challenges, allowing professionals to stay at the cutting edge of ICT best practices and latest technologies. Telindus Luxembourg is a subsidiary of the Proximus Group, the leading provider of Telephony, Internet, TV and ICT services in Belgium. In Luxembourg, Proximus is present via its two subsidiaries, Telindus and Tango. For its Telecommunications offer, Telindus is 'powered by Tango', and relies on Tango's high-performance Telecommunications Networks to deploy innovative convergent solutions.
